*financial assets* means cash, securities or a contract of insurance, a deposit or evidence of deposit that is not a security for the purposes of securities legislation. These financial assets are generally liquid or relatively easy to liquidate. The value of a purchaser's personal residence would not be included in a calculation of financial assets.

To calculate a purchaser's net assets, subtract the purchaser's total liabilities from the purchaser's total assets (including real estate). The value attributed to assets should reasonably reflect their estimated fair value. Income tax should be considered a liability if the obligation to pay it is outstanding at the time of the distribution of the security.
